Subject: Denbury Carbon Solutions, LLC and EPA Region 8 Introduction Meeting

Good Afternoon,

Denbury Carbon Solutions, LLC has submitted the attached GSDT project request to the EPA for a geologic sequestration project in Carter County, Montana and we would like to introduce our HSE and regulatory team leaders to your Regional Office. Denbury's HSE and regulatory staff will be handling the preparation and submittal of the GS project and Class VI well applications. We are excited to kick off this new endeavor, but we realize the permitting efforts for both Denbury and the regulatory agencies will be extensive. We would like to schedule a brief video conference to simply introduce ourselves and open the lines of communication. Our technical experts would also be happy to provide a high level overview of the proposed project, but an in-depth review would not be the purpose of the initial introduction call.

Is there a time within the next few weeks that works best for your department to join a call with us? Perhaps an afternoon the week of March 21-24?

Please let me know your availability. We look forward to talking with you.

Brandi Johnson
Regulatory Compliance Supervisor
Denbury Onshore, LLC
